**Full-Stack Developer** focused on building scalable, high-performance web applications with **React**, **Next.js**, and modern tooling. Specialized in headless eCommerce with Shopify and Magento integrations, with a strong emphasis on clean code, modular architecture, and high performance. Delivers production-ready solutions through clear communication and strong collaboration.

## WORK EXPERIENCE

### Front-End Developer

Habitat - Shopify & eCommerce Agency

11/2023 - 06/2025

*After a successful contract period, I transitioned to a long-term role where I contributed to the development of multiple headless eCommerce storefronts.*

#### Achievements/Tasks

- Implemented the architecture for a headless eCommerce storefront using **React**, **Next.js**, **Redux** and **Shopify Storefront**
- Worked closely with project managers to define, estimate, and deliver critical features on schedule
- Developed reusable components and layouts with consistent design patterns
- Ensured accessibility compliance based on **WCAG** standards
- Refactored outdated code to align with modern best practices and migrated a legacy projects from Next.js Pages Router to the App Router

*Projects : Opti-wohnwelt.de - Opti-Megastore.de - Seeger24.de - Funkelhaus.de - Unikomodels.com*

### Front-End Developer (Contract)

Habitat – Shopify & eCommerce Agency

02/2023 - 11/2023

*Joined Habitat as a contract Frontend Developer to support a headless eCommerce project for a German retail furniture business.*

#### Achievements/Tasks

- Implemented new features and UI components using **Next.js** and **React**
- Translated designs from **Figma** and **Adobe XD** into responsive, accessible, and modular components
- Worked on frontend performance improvements with a focus on **Core Web Vitals** and modern best practices
